* Target continuous improvement on environmental, cultural, economic, quality, human rights, health and safety issues
* To support the elimination of poverty by creating employment opportunities without discrimination of religion, language, race, age and culture,
* To reduce and prevent waste through safe and healthy food production,
* Provide healthy and balanced nutrition of our guests and employees.
* To adopt the elimination of all kinds of gender discrimination as a fundamental human right and to act in accordance with gender equality in all our activities towards all our employees and guests,
* Acting in accordance with water saving and sustainability criteria, reducing per capita water consumption,
* To reduce carbon emissions and greenhouse gas emissions by utilizing renewable energy sources in our hotel activities and new investments,
* To take care that all our renewed equipment consists of materials that consume less energy and are environmentally friendly,
* Aim to contribute to the healthy growth of the local, national and further global economy in all activities of our hotel,
* To follow technological advances closely and make adaptation a principle,
* "Equal Workload, Equal Pay" policy is always at the forefront for all our employees,
* Take responsibility in protecting the natural reserves and cultural heritage,
* Establish a good waste recycling plan and ensure that all our waste is collected by licensed companies,
* Inform all our guests and employees in order to ensure the efficient use of all natural resources,
* Act together and share information with all our stakeholders with whom we interact, in all kinds of activities and interactions for sustainability.
